

ISTE STUDENT CHAPTER

Industrial Visit to Protec Pvt. Ltd.

Faculties accompanied: Mr. Nitin Jayakumar

Date: 18/02/2019

Branch: Mechanical Engineering

Semester: 4th sem Diploma

No. of students: 16

Summary of the Industrial Visit:

Dated 19th February 2019; Department of Mechanical Engineering, School of Diploma Studies organized the industrial visit for its 4th-semester students at Protec Pvt. Ltd., GIDC Metoda, Rajkot. The objective of the visit was to make understand the students about the various grinding process and inspection methodology adopted at the firm for the manufacturing of taper rollers for the bearings which are used for heavy-duty machinery and automotive. Students got the overview of kaizen system, lean manufacturing and various process & control plans under standard IATF (International Automotive Task Force).
